

AquaProof™

PREMIUM WATERPROOF FLOORS

THE COLLECTION AQUAPROOF

AquaProof is the next generation of waterproof flooring constructed with an innovative core technology and high definition Embossed in Register Texture to achieve the benefits of a waterproof floor and visuals of natural wood. With so many unique styles to choose from, you will definitely find the perfect style to complement your new decor.

NANOTEK FINISH

- Protects against Scuffs, Scratches & Stains
- Provides Easy Cleaning
- Rated for Comercial Traffic

EIR TEXTURE

- Realistic Embossed in Register from Real Hardwood (EIR)
- High Definition Decors & Rich Surface Textures with Enhanced Bevels

WATER REPELLENT EDGE TREATMENT

- Tigher Locking System
- Sealed Profile

WATERPROOF CORE

- Eliminates Sub-Floor Telegraphing
- Prevents Mold and Bacteria
- Will not Expand or Contract under Normal Conditions
- Longer Transitions Runs

PREMIUM FOAM UNDERLAYMENT

- Sound Absorption for a quieter environment
- Provides Warmth and Comfort Under Foot

WATER PROOF CORE

AquaProof waterproof PVC Free core outperforms most waterproof floors in terms of overall performance, durability, and also 100% Plastic Free! AquaProof overall thickness enhances the patented locking system providing a stronger stable and rigid floor compared to a SPC floor. AquaProof is perfect for any room and large installation areas.

AquaProof is family friendly, it has no added urea-formaldehyde. Certified by FloorScore, our floors are chemical free and promote safe Indoor Air Quality.

SUPERIOR FINISH

NanoTek Finish provides the best protection against scuffs, scratches & stains no other typical finishes can compete. AquaProof features an AC4 highly resistant scratch and wear rating, perfect for residential and commercial use.
